

Vertiv™ Liebert® GXE UPS

1000 - 3000 VA 230V

Essential and Affordable
UPS for High Performance
Power Protection

Essential and affordable Uninterruptible Power Supply (UPS) for high performance protection

The Vertiv™ Liebert® GXE UPS is an online double conversion solution which offers power protection in an affordable, efficient system with deployment and operation flexibility.

The high output power factor (0.9) of the Liebert GXE single-phase UPS enables continuous and reliable power to more connected devices, protecting them against many disturbances in the AC mains with the online double conversion technology and the input surge protection.

The high efficiency in both line and ECO modes of operation for this already affordable UPS also drives energy and operational costs savings.

Available in 1, 1.5, 2 and 3kVA power ratings in either a compact tower form factor, or in a rack/tower form factor with flexibility for mounting in either tower position or inside a rack cabinet together with the IT equipment critical for any application. Moreover, the capability to add external battery cabinets in the rack/tower models provides scalable runtime for those applications requiring even a longer period of backup in case of AC mains failures. It is combined with a powerful internal charger with a maximum of 6 Amps for a fast recharge.

In addition to the extended runtime, having multiple monitoring options make this compact UPS ideal for delivering best-in-class power protection to equipment at the edge of networks or in remote sites.

Vertiv™ Liebert® GXE Features

- High output power factor (0.9)
- High efficiency in online mode (up to 91%)
- Even higher efficiency (up to 96%) in ECO mode
- Compact tower only form factor or flexible rack/tower convertible design
- User-friendly LCD interface
- Fast recharge time (<4 hours to 90% for internal batteries)
- Extended runtime with up to 4 optional External Battery Cabinets (EBC)
- Hot-swappable user replaceable internal UPS batteries
- Remote management capability with optional Vertiv™ Liebert® Intellislot™ IS-UNITY network management cards
- (8) IEC60320 C13 outlets (all models), plus (1) C19 (3kVA model)
- Automatic internal bypass
- Free UPS management software

What's in the box?

- Liebert® GXE UPS
- Quick Installation Guide
- Safety Instructions
- Adjustable 4-post rack mounting kit (rack/tower models only)
- Rack mounting ears & hardware
- Input power cables (UK, AUS, Schuko. 1.8 m)
- Output power cables IEC C13-C14 (x2 in 2-3kVA models, and x1 in 1-1.5kVA models)
- USB cable type A-B (1.2 m)
- Stabilizing feet for tower configuration (rack/tower models only)
- Free [Vertiv™ Power Assist](#) software for local UPS status and shutdown, or [Vertiv™ Power Insight™](#) for remote network management

Vertiv™ Liebert® GXE 1000 VA rack/tower shown with an optional 2U external battery cabinet

Vertiv™ Liebert® GXE Features and Benefits

High output power factor (0.9)

More usable power enables more connected loads saving space and costs.

Efficiency (up to 91%) in online mode

Higher efficiency means an optimized energy management and lower heat dissipation, thus providing energy savings and improved reliability.

Remote monitoring

Liebert® IntelliSlot™ for operation with optional IS-UNITY cards.

Hot-swappable user replaceable batteries

Easy replacement of the internal batteries without power interruption.

Multiple power sockets

x8 IEC C13 output sockets in all the ratings to protect more devices.

Flexible Rack / Tower models

Space-saving UPS provides rack space optimization and flexible installation.

External battery cabinets

Up to 4 external battery cabinets can be connected in rack/tower models for applications requiring extended runtime.

Fast recharge time

Powerful integrated charger, recharging internal batteries in less than 4 hours @90%. Up to 6 Amps maximum capacity with EBCs connected in R/T models.

LCD display

It provides insight to UPS status for easy installation and operation.

Compact tower design

Tower form factor with a compact design for non-rack applications.

Rack mounting kit included

4-post rack mounting kit included in rack/tower models for easy and immediate installation.

Vertiv™ Liebert® GXE Applications

IT

- Servers
- Networking equipment
- Data storage

Finance

- Branch offices
- Closed-circuit televisions and data protection
- ATMs

Telecom

- 5G mobile stations
- Access and “last mile”
- Small control rooms

Industrial

- Manufacturing sites
- Control equipment and programmable logic controllers (PLCs)
- Data and networking equipment

Education

- Networking closets
- Networking equipment
- Office protection

Government

- Distributed offices
- Closed-circuit television (CCTV) and data protection
- Small server and storage rooms

Retail

- Several point of sale systems
- Networking and wiring closets
- Security and voice over internet protocol (VoIP) telephony

Edge

- Distributed cloud services
- Content providers
- Sensors and data stations

To get the utmost performance, upgrade to Vertiv™ Liebert® GXT5

Liebert® GXT5 750VA - 3000VA extra features

Unity output power factor (1.0)	3 years standard warranty
Controllable output power sockets	Up to 10 external battery cabinets
Even higher efficiency in online mode (up to 94%)	Autodetection of external battery cabinets
Improved graphical LCD display	Improved battery charger
Lithium-ion battery models available	Frequency converter mode
